A library clientele satisfaction survey serves as a tool for collecting feedback from users regarding their interactions and contentment with various aspects of library services, resources, personnel, and facilities. The survey typically includes inquiries about the accessibility of library materials, the assistance provided by staff, the quality of resources, and overall satisfaction with the library experience. Its primary goal is to pinpoint areas for improvement, enhance services, and ensure that the library adequately meets the needs of its patrons.

As indicated in the graph above, the online survey garnered a total of 2,315 responses. Among the program categories, BAELS received the highest number of responses, totaling 349, which accounts for 15.1 percent of the overall feedback.

LIBRARY SERVICES

Library Clientele Satisfaction Survey AY 2023-2024

Technology

Computers, online resources, JHCSC Facebook page

1. Collections:

- There are a significant number of responses indicating a positive sentiment (Excellent or Poor), particularly with 1,462 responses at a rating of 5 (Excellent). However, there are also a notable number of responses at lower ratings, such as 33 at 2 (Average) and 38 at 1 (Poor), suggesting some areas for improvement or varying opinions.

2. Services and Programs:

- Similar to Collections, there's a substantial number of positive responses, with 1471 at a rating of 5. The number of responses decreases as the ratings decrease, indicating overall positive sentiments. Still, there are some responses at lower ratings, suggesting areas where services and programs may need attention.

3. Physical Set-up:

- The majority of responses are positive, with 1384 at a rating of 5. However, there are a higher number of responses at lower ratings compared to Collections and Services and Programs. This could indicate that the physical set-up may be an area where improvements or changes are desired by a portion of respondents.

4. Staff:

- The Staff category has the highest number of responses at a rating of 5 (Excellent) with 1,623 responses, suggesting a generally positive perception of the staff. The number of responses decreases as the ratings decrease, but overall, the staff seems to be well-regarded.

5. Technology:

- Similar to Collections and Services and Programs, there's a substantial number of positive responses with 1,490 at a rating of 5. The number of responses at lower ratings is relatively low, indicating that technology is generally well-received.

In summary, the data suggests that respondents generally have positive perceptions across all categories, with some variability in the level of agreement. Areas with lower ratings may warrant further investigation or improvement efforts. Understanding the context and gathering additional qualitative feedback could provide more insights into specific strengths and areas for enhancement.

LIBRARY ACTIVITIES

Online AACCUP Level II Accreditation (MAEd and Mag. Dev.)

The Main Campus of J.H. Cerilles State College recently experienced an online survey visit conducted by the Accrediting Agency of Chartered Colleges and Universities in the Philippines (AACCUP) on July 28, 2023. During the accreditation process, the accreditors evaluated two programs: the Master of Arts in Education (MAED) and the Master of Agricultural Development (MAGDEV). Dr. Nancy F. Galban was the designated accreditor responsible for assessing the library during this online accreditation.

LIBRARY ACTIVITIES

LIBRARY ACTIVITIES

89th National Book Week Celebration

The JHCSC Main Campus Library organized a series of activities to commemorate the 89th National Book Week held from November 24 to 28, 2023. Emphasizing the significance of reading in shaping the youth, the chosen theme for this year's celebration is "READ. REREAD. RELIVE." National Book Week is an annual event in the Philippines, typically observed during the last week of November, aiming to promote reading and literacy.

The main objective of this year's celebration is to rekindle a genuine passion and love for daily reading, transforming the act of reading without a specific purpose into a meaningful and purposeful activity.

Benchmarking 2023

Benchmarking is a valuable practice aimed at observing and learning from the best practices of other institutions, with the intent of potentially implementing and enhancing similar practices within one's own organization. The librarians of the J.H. Cerilles State College Library System recently engaged in a benchmarking activity at three prestigious institutions in Luzon: Collegio de San Juan de Letran, Lyceum University, and Polytechnic University of the Philippines.

During this activity, the Director of Libraries played a pivotal role, being present to provide assistance, guidance, and introductions to the various student services and library services offered by these institutions. The goal was to gain insights, learn from successful models, and explore opportunities for improvement within their own library system.
